

CAMRA President presents CRIRSCO award to Mr Zhu Yangyang in recognition of his contributions as CRIRSCO's representative in China for many years.

Following the completion of China's membership application process at the end of last year, in January 2026 the CRIRSCO Board accepted the resignation of Mr Zhu Yangyang, who had acted as CRIRSCO's representative during the long process that led to CAMRA joining CRIRSCO. His knowledge of China and the Chinese minerals sector, plus his close co-operation with Mr Peter Stoker who led the CRIRSCO working group, were key elements in ensuring that work on this extended process came to a successful conclusion in October 2025.

In February 2026, the CRIRSCO Board agreed to award a Certificate of Emeritus Expert to Mr Zhu Yangyang, in recognition of his valuable assistance during the application process over an extended period. A framed copy of the certificate was presented to him by Mr Wu Haiyang, President of The China Association of Mineral Resources Appraisers (CAMRA), on behalf of the CRIRSCO Board, at a special ceremony held in Beijing on 19 May 2026.

Mr Zhu Yangyang, CRIRSCO representative to China (2015-2025) receiving the CRIRSCO certificate of Emeritus Expert from Mr Wu Haiyang, President of CAMRA, Beijing 19 May 2026.

The text on the certificate is shown below

CERTIFICATE OF EMERITUS EXPERT: Zhu Yang Yang

In recognition of your long-standing and distinguished contributions to CRIRSCO Committee for Mineral Reserves International Reporting Standards (CRIRSCO), and in appreciation of your invaluable leadership, dedication, and professional commitment toward the realization of CAMRA's membership and its acceptance into the family of CRIRSCO Reporting Codes.

Your efforts have significantly advanced the principles of transparency, materiality, and competence in mineral resource and reserve reporting, strengthening international alignment and cooperation within the global mining community.

Through your stewardship and advocacy, the global CRIRSCO family has been enriched, and the advancement of internationally harmonized reporting standards has been further realized.

This designation of Emeritus Expert is conferred with deep appreciation and respect.
